Johnson Joins Donna Seidel's Campaign for State Senate *Announces he will run for 85th Assembly District*

Wausau, WI -- Jeff Johnson released the following statement today regarding State Rep. Donna Seidel's announcement that she will run for State Senate instead of seeking re-election to the 85th Assembly District seat:

"State Rep. Donna Seidel has built a heck of a record fighting for middle class folks here in central Wisconsin. Because of that, she is well-known and highly respected, and I've believed for a long time that she is the strongest possible candidate to go head-to-head with Pam Galloway. Now that she's stepped up to run, I will be ending my State Senate campaign and enthusiastically joining hers. I hope that others who were considering running, like me, will come to the same conclusion." Further I call on Senator Galloway to denounce the Republican tactic of running "fake" Democrats in a primary.

"At the same time, her candidacy for State Senate will leave a huge void in the 85th Assembly District. We need a strong voice to replace hers, and that is why I will seek the 85th District State Assembly seat this fall."
